

**REGULATED RATE OPTION – ENERGY RELATED ITEMS
(INTERIM)**

Effective: January 1, 2004

- For all Customers at Points of Service throughout the territory served by the Company, who are eligible for the Regulated Rate Option Tariff in accordance with the Regulated Rate Option Regulation (A/R 132/2001).

Price

- The Applicable Distribution Tariff Price Schedule at a Point of Service shall determine which Regulated Rate is applicable to the customer at the Point of Service, as indicated in the table below.
- Charges for service in any one billing period shall be the sum of the charges of the Applicable Distribution Tariff Price Schedule, the Non-Energy related portion of the Regulated Rate Option, and the Energy related Regulated Rate Energy Charges below.

Regulated Rate	Applicable Distribution Tariff Price Schedule	Energy Charges ¢/kW.h
E1	D11	E1rate *
E2	D21, D22	E2rate *
E3	D31, T31, D32	E3rate *
E4	D41	E4rate *
E51	D51, D52	E51rate *
E56	D56	E56rate *
E6	D61, D63	E6rate *
E7	D25, D26	E7rate *

* $Em_{RATE} = \sum_{h=x}^y [Pool Price_h * Purchases_{hm}] / \sum_{h=x}^y [Sales_{hm}]$, Where m= is the rate class; x= the starting hour in the time period being billed; y= the ending hour in the time period being billed

Application

Price Adjustments - the following price adjustments may apply to the Regulated Rate Charges above:

- Temporary Adjustment (Rider G)
- Interim Adjustment (Rider J)
