

# Join us at our open house

ATCO Electric is hosting an open house for a proposed  
POWER TRANSMISSION LINE

**Thursday, December 11, 2008 - 2:00 to 8:00 p.m.**  
**Senior's Recreation Centre, Elk Point, Alberta**

ATCO Electric is hosting an open house to share details of a project in the Elk Point area. The project includes about 26 to 28 kilometres of new 144 kilovolt transmission line, a new substation at the Inter Pipeline Fund pump station northeast of Elk Point and minor alterations at the Irish Creek substation southeast of Elk Point.

Several route options are being considered for this project and we want to consult with local residents and stakeholders before selecting one.

*The map shows several route options.  
Only one route is required.*

**If you have questions about the  
project and can't attend the  
open house, please contact:**
